

### Enrollment Instructions

- The first step is for the prospective student to begin an application. To access the application please use the attached website or QR card. Our application is free and requires no essay or test scores. <https://connectuc.rwu.edu/apply/>
- From there, the student will find a series of personal background information to fill out.
- The application then moves into enrollment information regarding their interests and previous experience. Within this section the questions “Are you eligible for a discount due to an affiliation with one of our partners?” must be filled out. Here we ask that the student please select **UC Girl Scouts SE NE**.
- The remainder of the application is a section on disciplinary history and a signature.
- Once the application is submitted, an Admissions Pathway Specialist will reach out to introduce themselves. They will be your direct contact for any questions or help.
- The application requires high school or institution/college to be filled out. For acceptance, RWU UC must receive the student’s high school transcript as well as any college or institution they have attended. These must be official copies. To obtain these, the student can use the website [Parchment](#) or institution’s website to order them. For the high school transcript, it is most efficient to call the school and speak to the guidance office. They can send the transcript over to the admissions team. The email that we ask transcripts to be sent to is [ucadmissions@rwu.edu](mailto:ucadmissions@rwu.edu)
- Once the admissions team receives the transcripts their application is then moved along.
- From there, the director of the program of interest will create a degree plan for the student. This degree plan will reflect the credits transferable through the transcripts as well as the credits needed to graduate.
- A decision letter will then be uploaded onto the application account that the student created.
- An Admissions Pathway Specialist will also reach out to not only congratulate the student but to set up a time to speak about advisement for classes.
- The initial enrollment for classes is done by the Admissions Pathway Specialist.
- Once registered the student will receive an email that contains their login credentials for all RWU UC sites.
- The enrollment is then officially complete.
