

Part-Time Photography and/or Videography College Intern Needed

Description

The Girl Scouts of Southeastern New England (GSSNE) is searching for a Photography and Videography College Intern. The intern will report into the Advancement Department but will work cross-departmentally to cover GSSNE signature events, summer camp activities and other special projects as assigned. During the summer, there will be a key focus on capturing imagery and video from our 5 summer camps located throughout RI and MA. The selected candidate must also have solid videography editing skills so that final videos can be shared on GSSNE's social media accounts and websites. There is room for creativity and opportunity for final images to be published in GSSNE's high end, full color print materials, billboards, etc. This is an incredible opportunity to build an impressive portfolio! At this time, this is an unpaid internship.

Requirements

Interns need to have solid photography, videography and software editing skills.

Start and End Date

We are looking for someone that is available ASAP. This internship has no end date and is an ongoing opportunity. Required hours will be higher in the summer due to camp and then will reduce during the school year.

Submissions requirements

Please submit your resume to Rachel Pintarelli, Director of Marketing & Communications at rpintarelli@gssne.org. Examples of previous photography and video work are requested (can be shared at interview).
