

Beyond Camp: Animal Planet July 13-17

Spend the week on a fun animal adventure. Learn about all kinds of cool animals through fun activities, talk with guest speakers, and explore in your very own neighborhood. Through this alternative camping experience girls will also experience the traditions of camp, make new camp friendships through a variety of virtual programs, do fun activities in their own backyard, and participate in our weekly Inside Outside Campout. Each girl will complete several components of badge work, getting them closer to completing their badge goal.
