

It's Time to Get Outdoors!

Here are some easy activities and badge work that you can still do no matter the circumstances.

Daisy- Complete your Outdoor Art Maker Badge

Head outside for a fun scavenger hunt. When you're done, take some time to draw a picture of your adventure- make sure to include the pretty colors and sounds that you observed!

Brownie- Complete your Hiker Badge

Pack your day pack and head out for a hike on your local hiking trails. Make sure you don't forget to pack extra layers for warmth, a map, and a snack and a water bottle!

Junior- Complete your Animal Habitats Badge

Take some time learning about all of the different habitats around the world. Research some of the following topics: local habitat, an endangered habitat, what makes a good habitat, the habitat of our favorite animal, and human impact on a habitat of your choice. Once you have done all of your research, get creative and make an animal house. Put your house outside to see if you get any visitors!

Cadette- Complete your Night Owl Badge

Take advantage of not having school to learn a bit more about the night time. To complete this badge follow these fun steps:

1. Take time to research 4-5 different constellations and the stories behind them.
2. Learn some fun facts about 2-3 nocturnal or crepuscular animals.
3. Research 1 female astronaut
4. Once it gets dark, take you family and snack outside for a STAR PARTY to see if you can identify any of the constellations you learned about.

Senior/Ambassador- Start your Eco Explorer/Eco Advocate Badge

Become an active member of your community by advocating for a healthier environment. Take some time to research some different global ecosystems and their biodiversity. Dine in deeper to see the human impact in these areas. Next, write a letter to your local government advocating for one of the global ecosystems of your choice.

General Outdoor Activities For Everyone To Do!

Go for a hike: Check out this great site for hiking in Rhode Island <https://exploreri.org/>
